## **A Word from the Chief:**

I would like to take a moment and give everyone some insight on the fire department. As everyone knows we had some personnel changes this month in the Chief position. Moving forward we, the Fire & Rescue will continue to internally foster an environment that promotes trust, respect, and collaboration. We recognize that trust is the cornerstone of the American fire service, and we will promote an internal culture that reflects a friendly and team-oriented atmosphere. We will continue to respect the great sacrifices of the volunteer firefighter and understand that we are stewards of the reputation of the fire service. We will continue to collaborate internally for the overall improvement of the organization and turn externally to explore best practices in the delivery of fire and emergency medical services as well as show good will.

Our commitment to excellence through innovation and preparedness will be a priority provision for all those living, working, or visiting our community. Our leadership and volunteers will hold one another accountable for applying our mission and values, while continuously striving to reach our goals.
